**Current Bb Plugins**

### Blackboard Basic

Latest version released 30<sup>th</sup> April 2015

- Better support of snapshot course copy
- Breadcrumb issue fixed
- Added a dropdown for API selection

### Blackboard Direct V1

Latest version planned for release next Monday

- Re-added the ability to fully roll back from V2.5
- Better handling of non-Latin languages
- The first of our plugins to be retired

### Blackboard Direct V2.5

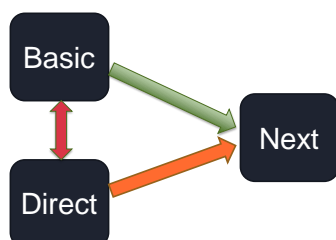

Latest version released 30<sup>th</sup> April 2015

- Revamped UI giving a cleaner feel
- Adds PeerMark to the Direct integrations
- Gives access to the Rubric and QM libraries
- Support for Blackboard groups
- Search feature added to the assignment inbox

### Turnitin Next Blackboard

- The new Blackboard plugin will replace both Basic and Direct (V1 and V2.5)
- Uses LTI Launch technology to port users into Turnitin
- Turnitin is displayed in an iFrame
- All of the features of Turnitin Next will be available through the plugin
- We are looking to add in migration for both Basic and Direct users to move onto the new single plugin

### Migration Options.

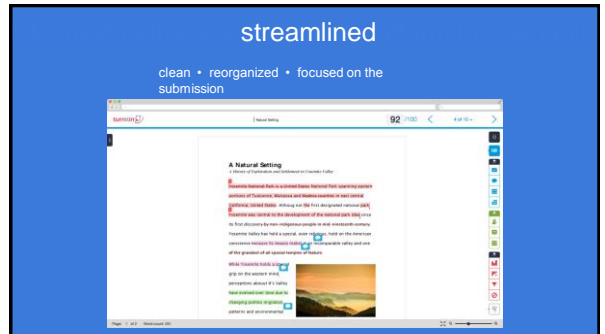

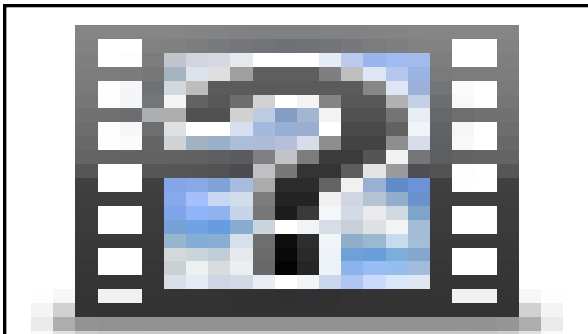

## Turnitin Next

Revolutionising the experience of writing to learn

### What is Turnitin Next?

The program for introducing and delivering product enhancements over the next 18 months
